Space and Culture, India

Elsevier is pleased to inform you that coverage of Space and Culture, India is selected in Scopus.

Elsevier products are used by leading research institutions, government organizations, decision-making bodies and corporate organizations around the world. Therefore, coverage of your title(s) in Elsevier products provides increased visibility and discoverability of your content.

As you will be aware, Elsevier products have adopted formal content selection criteria and standards. By accepting your title for coverage in one or more of these products, we have determined that your title(s) meet these standards; and by granting us permission to have your title(s) covered, you in turn have confirmed your commitment to the highest possible publishing standards. We feel sure you will appreciate that continued coverage of your title(s) in Elsevier products does depend upon your continued adherence to that commitment.

Although we require access to the full-text of your publication for indexing and extraction purposes (e.g. to capture keywords, affiliations and references etc), we never provide the full-text to our users or other third parties. Using sophisticated linking technology, we always refer our users back to your online platform to access the full-text or to view purchasing information (depending on the entitlement of the user). This ensures that coverage in Elsevier products may also enhance user traffic to the content on your platform.

**Please confirm the ongoing permission to cover your title(s) by completing the attached Coverage Form and returning a signed copy per email or surface mail. We thank you and look forward to the continued cooperation.**

Yours sincerely,

Monique Berkhof  
Director E-Operations  
Elsevier B.V.  
Radarweg 29  
1043 NX Amsterdam  
The Netherlands

Regards,

Reshma
